

Getting Started with First Citizens & Fitbit Pay

Step 1: In your Fitbit dashboard (in your app on your device) tap on the Account icon and then on the image of your watch. Tap on the Wallet tile. Then tap the “Get Started” button.

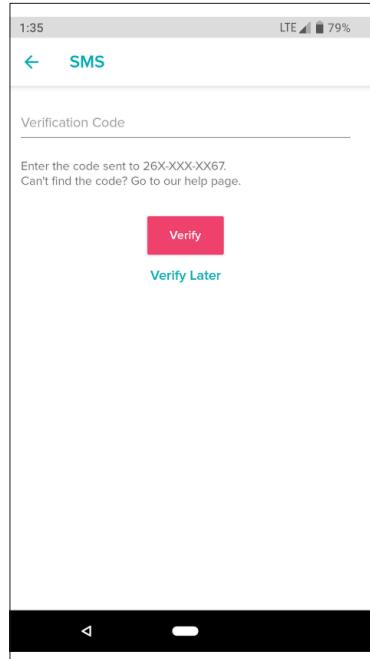

Step 2: Type in your debit card number. Then add your other details (expiration date, security code, etc.) Tap “Next” at the top right after confirming your information is correct.

The form consists of two stacked screens. The top screen has a 'Card Number' field with a placeholder and a numeric keypad below it. The bottom screen has a 'Card Number' field with the digits '1234567890' entered, an 'MM/YY' field with a placeholder, and several other fields for security code, first name, middle initial, and last name, each with a placeholder.

Step 3: Type in your billing address.

Step 4: Tap the “Agree” button on the Terms & Conditions page.

Step 5: Verify your card through Shazam and FCB. This will either be a phone call or text message.

Finished! You should receive a prompt that Fitbit Pay has now been activated, and you’re ready to go!
